expertise and other support for state drinking water programs  
[Briefing Factsheet LCR State Needs revised fv PCG.docx](#)

Administrator,

During our Water Program briefing for you, we discussed the challenges of controlling lead in drinking water and he expressed an interest in learning more about the capabilities of states to oversee utility corrosion control programs, what EPA is doing to help, and what states' needs are for implementing the Lead and Copper Rule (LCR) and other aspects of the Safe Drinking Water Program. The attached fact sheet responds to these questions.

Mike

Michael Shapiro
